Delta CleanTech Inc Presents Carbon Capture Workshop in Abu Dhabi

May 13th, 2022

Delta CleanTech is pleased to announce our upcoming workshop showcasing the best technical and commercially available Carbon Capture Technologies for the removal of CO₂ from flue gases and tail gases. Dr. Ahmed Aboudheir, Chief Technology Officer at **Delta CleanTech**, will present this workshop highlighting proven technologies which will assist your company to meet the Net Zero Footprint targets declared during the Glasgow 26th UN Climate Change Conference. The technologies of CO₂ capture presented in this workshop specifically target the emissions from industrial point sources such as natural gas processing, oil refineries, hydrogen production, cement plants, chemical productions, power generation, etc.

Registration & Fees

The Abu Dhabi workshop will be provided virtually and in person June 30, 2022 from 9 AM to 12 PM GMT+4 (Abu Dhabi Time) at the Park Rotana Hotel, at Al Salam St., Eastern Ring Road, Abu Dhabi, UAE.

**More information on
how to register to come.**

Delta CleanTech Inc. is a 15-year ESG-driven, recognized global technology leader in CO₂ Capture, Decarbonization of Energy, Solvent & Glycol Reclamation, Blue Hydrogen Production, and Carbon Credit Aggregation and Management. **Delta** continues to provide solutions to clients all over the world in sequestering, capturing, and reducing CO₂ and through its Carbon Rx wholly owned subsidiary is originating, validating, tokenizing, and streaming Carbon Credits.

Throughout 2022, Delta will continue to host a series of CO₂ Carbon Capture Workshops. Workshops will be held in Abu Dhabi, Calgary, Houston, Glasgow & Beijing.
