Delta CleanTech Presents at the National Carbon Capture Canada Exhibition in Edmonton, Alberta

On September 20-22, **Delta CleanTech** will be attending the National Carbon Capture Canada CCUS Convention in Edmonton, Alberta. **Delta's** Process Engineering Manager, Walid ElMoudir, will be a moderator in a panel discussion titled, "How will CCUS Enable Other Pathways Essential to Decarbonization". Topics of discussion include how CCUS contributes to the decarbonization of energy systems, creates new end-use products, and achieves emissions reduction and how we can ensure the ongoing affordability and reliability of our power systems while critically reducing emissions.

*Delta's President,
Jeffrey Allison*

*Delta's Process Engineering Manager,
Walid ElMoudir, Ph.D., P.Eng., PMP*

Delta CleanTech Inc. is a 17-year ESG-driven, recognized global technology leader in CO₂ Capture, Decarbonization of Energy, Solvent & Glycol Reclamation, Blue Hydrogen Production, and Carbon Credit Aggregation and Management. **Delta** continues to provide solutions to clients all over the world in sequestering, capturing, and reducing CO₂ and through its Carbon Rx wholly owned subsidiary is originating, validating, digitizing, and streaming Carbon Credits.

Joining Mr. ElMoudir will be **Delta's** President, Jeff Allison. They will be located at booth number 170 of the event, so be sure to stop by and learn how **Delta's** Carbon Capture Technologies are being used in the industries of today and those of the future.

Stop by booth number 170 of The National Carbon Capture Canada CCUS Convention held September 20-22 at the Edmonton Convention Centre in Edmonton, Alberta
